

What is the Vine institute?

The mission is to network the Christian community in cultivating godly and effective leaders in Christ who promote healthy church communities in a culturally diverse and collaborative Body of Christ.

Why are we doing this?

Leadership training has been identified as the single most important factor in successful congregational life in

- established and emerging churches
- refugee and immigrant communities

God is bringing the world to Salt Lake-- 25,000 refugees in 20 years, and counting . . .

A great opportunity from God!

How are we doing it?

We facilitate Christian leadership training in multi-cultural small groups of emerging leaders at multiple locations.

The training covers ministry leadership skills dynamically connected to action plans aimed to produce "kingdom change" in church and community.

Who is doing this?

As a dba of Salt Lake Theological Seminary we have 25 years experience in training active leaders

- from 70 different congregations,
- from 30 denominational affiliations, and
- with a 30,000 volume theological library

Students come from

- established and emerging churches
- refugee and immigrant communities

Where do you fit?
